

GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive gastric acid in the stomach, creating the so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by gastric stomach ulcers. Food fermenting and decaying, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. The remedy is a powerful antacid, a few ounces of **Bismarck's Magnesia** and take a teaspoonful of the quarter glass of water after each meal. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation, and there is no sourness or pain. Bismarck's Magnesia (in powder, tablet form, or liquid or milk) is harmless to the stomach, inexpensive to take and the best form of antacid for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

DOUBLE BEAUTY OF YOUR HAIR

"Danderine" creates mass of thick, gleamy waves

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, gleamy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the Danderine and draw this through your hair taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous, fluffy and so easy to do up. All dust, dirt and expensive oil is removed.

WESTERLY

Charles S. Fowler, the active head of the Westerly Textile company, since the temporary retirement by reason of ill health of his father, former owner, Frederick E. Fowler, created a very favorable impression on his appearance before the town council on a matter of great importance to Westerly. Mr. Fowler is of the directory of the new Ninigret company, that has taken over the property in Westerly of the Ninigret mill company, owned by the Fowler family. He was before the council relative to securing the usual abatement of taxes for a period of ten years on new construction by new industries. He told the council in plain clear terms just what this new concern would mean to the future of Westerly, and openly declared that the Ninigret Rubber company interests held eighty per cent. of the stock of the new concern, and was to engage in the manufacture of cord fabric for automobile tires. Mr. Fowler told the council that the present property of the Ninigret company, would be utilized to the limit, and whether the capacity would be more than doubled in Westerly, or operated in Pawtucket where the Ninigret company has another plant, was entirely up to the people of Westerly.

Frank Manna, who abandoned his wife and two children and went away with two of his children and Mrs. Antonio Cappucco and two of her children, was brought from New York Thursday night by Police Chief Brown who secured him on requisition papers. Upon arrival Manna was greeted by many of his fellow countrymen at the railroad station, and was showered with confetti. He was taken to the police station and will be given a hearing in the third district court this (Friday) morning.

The Rhode Island house of representatives has passed the soldiers' bonus act which gives \$100 each to soldiers, sailors, marines and nurses. The act carries a bond issue of \$2,500,000, and an accompanying resolution provides for a special election on February 18, to approve the loan and make the act operative. An amendment to include yeomen in the bill was defeated by a vote of 28 to 59. Every man who had been actually a member of the military or naval forces, regardless of whether or not he had ever reached a cantonment, would be entitled to the bonus. The secretary of the board is to receive a salary of \$5,000 and Mr. Eaton, champion of the bill, declared \$25,000 for administrative purposes was not an exorbitant charge against the appropriation. A resolution proposing a \$500,000 bond issue for the construction of bridges on the state highway system, will also be submitted for approval at the special election.

Judge John W. Sweeney, of Westerly, a justice of the superior court, has been elected first vice president of the judicial council, Providence.

CINCINNATI MAN DISCOVERS DRUG THAT LOOSENS CORNS SO THEY LIFT OUT.

Local druggists are having a tremendous call for frezone, the drug which is said to shrivel a corn, root and fall without any pain.

A few drops applied directly upon a tender, aching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers.

This new drug is being dispensed at small cost in quarter ounce bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once and does not inflame or even irritate the surrounding tissue or skin. There is no excuse for anyone inviting death by infection or lockjaw from cutting their corns now.
